

# WIRE SHELVING

Chrome Finish

Green Epoxy Finish

Split Sleeves taper to ensure a snug fit that is easy to slide into place. Adjustable feet are standard, but foot plates, and casters are optional accessories. S-hooks connect multiple units without the need for posts.

Get dry goods moving with wire mobile carts. Available in 18" and 24" widths, wire mobile carts have built in handles for more reliable turning and greater durability. Non-marking casters upon request. Available only in chrome.

The only thing easier than ordering wire shelving from Stein Service & Supply LLC is putting it together.

With shelves that are adjustable at 1" increments and quick connecting split sleeves, this wire shelving is not only easy to assemble, but also strong: shelves can hold from 600-1000 lbs without buckling.

Wire shelving from Stein is also durable. Order the chrome finish for dry storage and green epoxy for refrigerated areas.

# WIRE SHELVING

## Mobile Carts

Each Mobile Cart comes with 2 handles, 2 shelves, 2 swivel and 2 rigid casters.

Chrome #	Size	lbs.
J1836CMC	18x36x33"	40
J1848CMC	18x48x33"	45
J2436CMC	24x36x33"	47
J2448CMC	24x48x33"	53
JH3C	18" handle	4.5
JH5C	24" handle	5

## Enclosures

Enclosures are available for specific size units only, but are compatible with stationary and mobile units. Enclosures include a hasp for a padlock.

## Wire Shelves

Each shelf comes with 4 black split sleeves. A minimum of 3 shelf levels required per unit.
